MCTS: Microsoft Exchange Server 2007

Overview: The Microsoft Certified Technology Specialist certifications enable professionals to target specific technologies and distinguish themselves by demonstrating in-depth knowledge and expertise in their specialized technologies.

A Microsoft Certified Technology Specialist in Microsoft Exchange Server 2007, Configuration (MCTS: Exchange Server 2007) possesses the knowledge and skills to operate as the second tier of support between the mailbox operator and the messaging administrator. An MCTS in Exchange Server 2007 also installs, configures, and administers an enterprise messaging environment that includes managing messaging security with Microsoft Exchange Server 2007.
